How to use this guide:

1. **Strategize:** Explore creative location-based targeting ideas to connect with consumers during key Q2 advertising moments.
2. **Refine:** Enhance both in-flight and upcoming campaigns by incorporating location-based segments to boost performance.
3. **Activate:** Seamlessly build and deploy segments using our self-serve Targeting Designer or choose from over 1500+ pre-built segments across major DSPs for swift activation.

Solutions for Marketers

Foursquare Targeting helps marketers effectively reach and convert customers by using real-world intent signals, like past visits and real-time location, to improve campaign success.

FSQ / targeting

Audience

- Create highly-customized audiences based on consumers' real-world behaviors.
- Deploy to your preferred platforms, across 550+ channels and screens.
- For immediate activation, select from 1500+ ready-to-use audience segments in major DSPs.

Proximity

- Build custom point-radius or polygon geofences to reach consumers in real-time.
- Build and deploy directly through our self-serve UI to your preferred programmatic platforms.
- Choose from Foursquare's **100M+ POIs** or upload your own for hyper customized targeting.

Foursquare Attribution helps marketers measure the impact of their campaigns on store visits and sales, enabling in-flight optimizations to maximize ad spend and reduce wasted impressions.

FSQ / attribution

- Directly tie ad spend to real-world store visits and sales across digital, TV, CTV, OOH, social, audio and more.
- Access all of your media reports in one unified UI and uncover which marketing channels and strategies are driving the most value for effective budget allocation.
- Gain actionable insights into your audience and customer loyalty segments, determine the ideal reach and frequency to boost conversions, and map out the optimal path to purchase.
